

Brake Cleaner

Fast Drying

A Proprietary Blend Designed to Remove Dirt and Dust and Dry Fast

PRODUCT DESCRIPTION

Sierra's Brake Cleaner offers a fast drying solvent blend that dries quickly without remaining residue. Designed also to remove any moisture present, making this a useful cleaner for many other applications within the vehicle repair industry.

Sierra Brake Cleaner is supplied in 20 litre and 200 litre drums.

- ✓ **Excellent cleaning properties**
- ✓ **Dries quickly**
- ✓ **Leaves no residue**
- ✓ **Non greasy**

APPLICATION

Sierra Brake Cleaner is an aggressive solvent designed to clean fast, and the simplest and easiest method for applying is via a solvent resistant pump up sprayer. Sierra supply a German made unit for this with a capacity of nearly a litre, making application extremely easy. These quality German units have been in the field for many years now, and are a serviceable item, that requires very little maintenance.

Application via spray should be directed to the entire disc/drum, particularly around the shoes/pads. All dust and dirt will run out of the drum/disc and immediately begin to dry.

Sold in 20 & 200 litre drums for maximum economy.

Since the solvent blend within Brake Cleaner will affect the seals in normal "trigger applicators" Sierra strongly recommend the use of the Solvent Resistant Pump up Sprayer, specially designed for this application. With simply care and maintenance, these units should provide a long service life. In the event of failure from age or prolonged use, replacement seal kits are available for minimal charge.

CHARACTERISTICS

Appearance	Clear Fluid
Specific Gravity	0.75
Boiling Point	50-135°C
D.G. Class	3
Drum Size	20 ltr and 200 ltr
