

# Ultra Gloss

## Premium Paint Cleaning Solution

### Multifunctional

Ultra Gloss is a second generation Multifunctional wash for all vehicle types, as well as caravans and free standing structures. The first generation – Lanowash was the only product in its category to offer a deep rejuvenated shine to dull or aged paint. Ultra Gloss goes further; it also offers a broad spectrum corrosion inhibitor pack, in a full potency super concentrated Truck Wash.

Ultra Gloss is the **absolute highest level** in automotive cleaning technology. It's highly concentrated formula will not just clean the paintwork, but will condition the top coat so thoroughly that the surface will actually look better than with normal washing. With the inclusion of lanolin, the vehicle will shine deeper, longer and look better. Visible imperfections such as swirl marks are reduced, as well as providing the natural corrosion protection of lanolin. Formulated for mixed fleet operators, Ultra Gloss can be safely used on every vehicle from Prime Movers to passenger cars.

Uses
<b>Mixed Fleets</b> – Trucks, passenger cars, bikes and caravans. Cleans & rejuvenates, leaving the paintwork gleaming and beading for weeks.
<b>Mining Vehicles</b> – Provides the best protection available. Makes subsequent cleaning even easier.
<b>Industrial</b> – Sheds, colourbond, all painted surfaces. Brings back luster.
<b>Marine</b> – All leisure craft. Assists in preserving gel coat finish. Great for the vinyl and plastic portions too, delaying the aging process.

Ultra Gloss Multifunctional Wash can be used on all washable surfaces.

Completely silicone free.

Typical pH: 7.0 to 7.5  
Specific Gravity: .950  
Appearance: Thick viscous liquid or gel  
Non hazardous, non regulated  
Packaging: Plastic Drums  
Sizes Available: 1, 5, 20, 200 ltr

Ultra Gloss is **extremely concentrated**.

This new level of concentration offers a much greater amount of washes per litre than ever before.

Ultra Gloss may be used in the traditional manner, or dispensed via high pressure sprayers, foaming guns or wash bay facilities.

Ultra Gloss is **fully biodegradable**, and is suitable for use in waste water recycling systems.
